Simplify cable patching with our high quality feed-through CAT5e and CAT6 patch panels

Save valuable rack space by using TXM's latest High-Density Feed-Through Patch Panels and High-Speed Feed-Through Patch Panels.

Offered in both Shielded and Unshielded versions, our Patch Panels are constructed of high-quality steel and finished with durable black powder coating.

Using top-performance In-Line Coupler Keystone Jacks, our Patch Panels provide a solution to connect two patch cables directly, and avoid the need for termination.

Available in CAT5e and CAT6.

24, 32, and 48 Port Panels available.
