

2RU Vented Centerweight Shelf

Specifications & Technical Data

Vented for most heat sensitive devices, our deep style 19" x 19" cantilever shelf allows the maximum space across any racks or cabinets.

SKU: CMRS-19X19-2U-VT-75

Product Description

- Deep style shelf providing 5" extra space in the back of racks
- Full 19" of rack space from front to back

Our deepest style shelves give the most space, and come with the 10-32 and 12-24 screw kits. Made with 16 gauge steel, this shelf also includes a vented flat surface.

Some heat sensitive devices this rack holds include:

- Hubs and Routers
- Ham Radio Gear
- Audio and Video Equipment
- Laser Printers
