

**RF Low Loss Cable
Ethernet
Fiber Solutions**

HIGHLIGHTS

- Available in bulk or by the foot
- Equivalent to LMR©-400
- UV Resistant Jacket
- Designed for Outdoor Use
- Buy in bulk and save even more
- Wholesale Pricing

LOW-400 (LMR©-400 Equivalent) RF LOW LOSS COAX CABLE

LOW-400 RF Low Loss Coaxial Cable

Our LOW-400 50 ohm cable features bonded aluminum foil and tinned copper braided outer conductor, and copper clad aluminum inner conductor.

The black polyethylene jacket is a standard UV resistant jacket, designed for outdoor use.

Carefully crafted to be a straight drop-in replacement for RG-8.

Compare to Times Microwave LMR©400. Our cable meets or exceeds those standards for a fraction of the cost.
