- Aqua, Blue or Green adapters
- SM/MM

1RU HIGH DENSITY RACK MOUNT FIBER PATCH PANELS

High Quality Rack Mount Fiber Adapter Plates

Our high Density, high quality Fiber Patch panels are available as pre-loaded panels or unloaded panels, and can be configured with various options depending on your fiber adapter type needs to allow you from 24 to 48 total ports for fiber patching. We offer **LC, SC, FC or ST** configurations in both **UPC and APC**. We also offer 10G adapter configurations.

Our panels save you rack space by only using **1 rack unit (1.75")** in your existing racks. **Each panel is 19"**. Our panels meet all applicable standards.

If needed, 23" extenders are available for sale separately.

24 total Panel ports, to allow either **24 or 48 fiber terminations**, depending on configuration.
